JR Automation to Exhibit at MOTEK 2018 in Stuttgart, Germany

HOLLAND, MI – October 8, 2018 – JR Automation, a leading provider of intelligent automated manufacturing and distribution technology solutions headquartered in Holland, Michigan, will be showcasing at MOTEK, the world’s leading trade fair dedicated to the fields of production and assembly automation, feed technology and material flow, streamlining through handling technology, and industrial handling. MOTEK takes place in Stuttgart, Germany and will be the first international trade show for JR Automation.

JR Automation team members from Europe and the United States will be hosting visitors within the company’s hospitality booth (Booth #7510 in Hall 7) to discuss emerging technologies, industry advancements, and specific customer projects.

“JR Automation has a strong presence across Europe, Asia, and North America and we are pleased to introduce our global team of experts to the marketplace at MOTEK,” said Mike Bostrom, President of JR Automation International. “Leveraging more than 38 years of industry experience, our team of experts can design, build, install, and support customized automated machinery for a broad range of industries including automotive, aerospace and heavy equipment.”

Through thoughtful and dynamic collaboration, JR Automation creates innovative solutions for manufacturing companies across the globe; helping them think, solve, create.

JR Automation welcomes guests to [Booth 7510](#) at MOTEK 2018, Stuttgart, Germany, October 8-11, 2018.
